

ENVIRONMENTAL MANAGEMENT POLICY

CleanNet Australia is committed to environmental leadership in all of its business activities.

CleanNet Australia provides policies to ensure a safe, health conscious workplace, protecting the environment, conserving energy and natural resources. With these policies, we believe that we can achieve a safe environment. We are committed and will:

- Be an environmentally responsible neighbor in the community where we operate, and correct incidents or conditions that endanger health, safety, the environment
- Conserve natural resources by adopting pollution prevention practices, extending the life of equipment through preventive maintenance scheduling, purchasing and reworking used equipment, paper recycling etc.
- Develop and improve operations and technologies to minimize waste, other pollution, minimize health and safety risks, and dispose of waste responsibly
- Ensure the responsible use of energy throughout our business, including conserving energy, improving energy efficiency, and giving preference to renewable over non-renewable energy when feasible
- Participate in efforts to improve environmental protection and understanding within our company and community
- Meet and exceed all applicable Federal and State requirements and adhere to stringent requirements no matter where we do business
- Strive to continually improve CleanNet Australia's environmental track record and performance
- Establish procedures for periodic review of environmental compliance laws and regulations.
- Establish procedures to ensure all that employees are knowledgeable understand and comply with all applicable environmental laws and regulations
- Promptly correct any practice or condition not in compliance with the set out objectives and standards
- Ensure that as a company we accept policies and procedures relating to the protection of environment, which are imposed by our customers, partners or suppliers

CleanNet Australia will abide by all required environmental legislation, EPA requirements and the requirements of AS/NZS ISO 14001:2004.
